Get in Gear: Affirm Water Bottles

Mon, 11/26/2007 - 2:30am by FitSugar

It's been made pretty clear that a disposable **plastic bottle is a monstrosity for the environment**, so I am always on the lookout for a personal water bottle that is reusable.

I personally love drinking from a stainless steel bottle because of how lightweight they are, but my **Sigg** set me back a few pennies. Another great stainless steel water bottle option is **Affirm Water**. These bottles are durable, reusable, lightweight, and fit in most bike bottle holders and car cup holders. Starting at \$11, it's nice knowing your water bottle won't set you back too much. What's more? Affirm Water is an all women-owned company. Buy one **here**.
